

Home Safety At Your Doorstep

Avoid Tripping Or Falling On The Stairs In Your Home

People Sometimes Trip, or Fall on Stairs Because of:

- 1** Clutter on the stairs.
- 2** Railings are missing or not sturdy.
- 3** Decorative edging is loose or bent.
- 4** Stairway carpeting is loose, or ripped.
- 5** The stairs are dark or poorly lit.

***Don't shut the door on home safety.
Let us give you room-by-room
suggestions to help you avoid
tripping or falling at home.***

For Safety's Sake:

- 1** Don't store household items on the stairs.
- 2** Replace or repair railings.
- 3** Repair or replace decorative edging.
- 4** Remove loose or ripped carpeting on stairs.
- 5** Install bright lighting. Stairs need to be seen.
